

SI5900 thermally-enhanced aluminum welded curb modular skylight is designed for residential and commercial impact applications. The welded curb design provides a weather-tight, self-flashing curb for simplified installation onto a structural curb provided “by others”. For projects outside the tested scopes, a one-time engineering evaluation may be applicable.

Features:

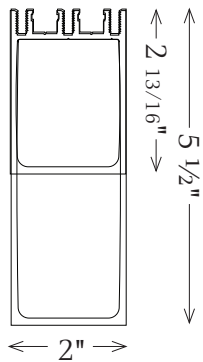

- Approved for use in HVHZ - FL# 11259.2
- Thermally-enhanced aluminum welded curb
- Self-flashing curb
- Pre-assembled, pre-glazed delivery; knocked down and modular options for large skylights
- 2- or 3-tiered drainage system with concealed interior condensation gutters.
- Accommodates insulated and monolithic impact glazing infills
- Standard finishes: AAMA 2603
 - Duracron: Hartford Green, Bronze, Black, Natural Clay, White, Sandstone
- LEED friendly system including recycled content
- Designed and manufactured in the U.S.A.

Options:

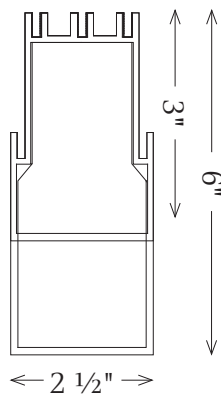

- Aluminum or wood rafters and purlins
- Custom finishes
 - Class I anodized: Dark Bronze, Clear
 - Powder coat finish: AAMA 2604-2605
 - Fluoropolymer (50% or 70%): AAMA 2604-2605
- Cladding options
- Designed to accommodate almost any impact monolithic, insulated, laminated, or decorative infill
- Delivery options: modular; pre-assembled, pre-glazed; pre-assembled, not pre-glazed; knocked down.
