

The International Window System is the next generation of Solar Innovations, Inc.'s already existing Muller Window System. This system has the ability to integrate numerous types of windows into one unit. Tilt turns, casements, awnings, fixed, and hopper windows are all able to be incorporated into the same unit, without requiring additional framing; offered exclusively by Solar Innovations, Inc. All windows are contained in a single frame and feature consistent sightlines. The International Window System can also be muller with Terrace Doors to accommodate an entire integrated door and window schedule.
