

SI5900 thermally-enhanced aluminum welded curb modular skylight is designed for residential and commercial applications. The welded curb design provides a weather-tight, self-flashing curb for simplified installation onto a structural curb provided “by others”.

Features:

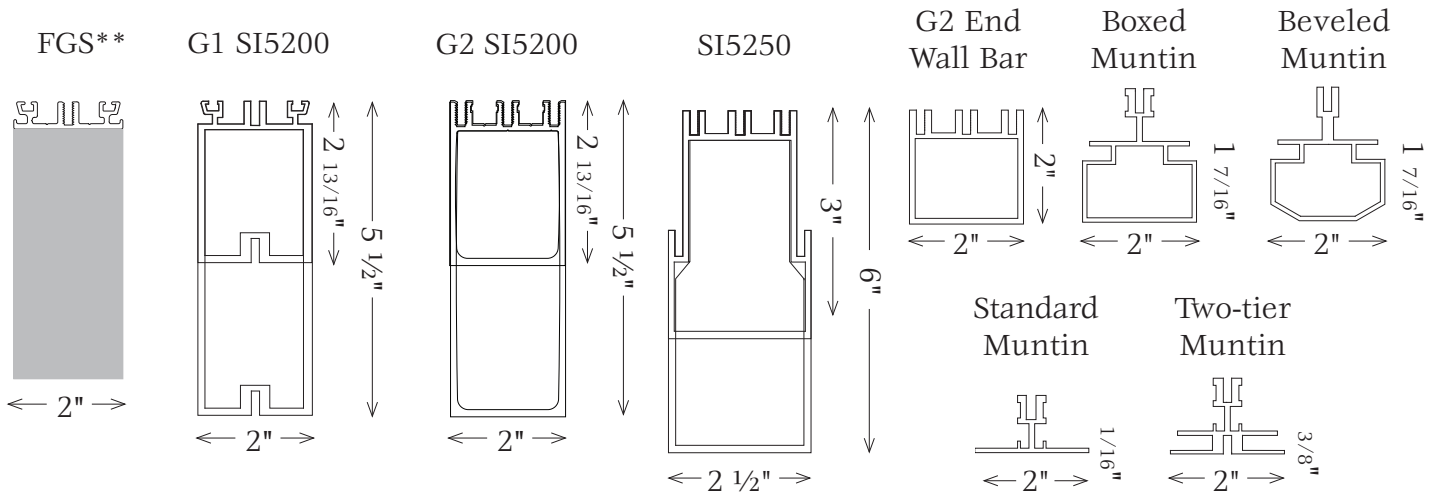

- Thermally-enhanced aluminum welded curb
- Self-flashing curb
- Available in fixed modules up to 6' x 12' (no purlins) or 3-bay maximum*
- Pre-assembled, pre-glazed delivery; knocked down and modular options for large skylights
- 2- or 3-tiered drainage system with concealed interior condensation gutters.
- Glazing infills from 3/16" to 1 1/2"; thicker glass options depending upon engineering
- Standard finishes: AAMA 2603
 - Duracron: Hartford Green, Bronze, Black, Natural Clay, White, Sandstone
- LEED friendly system including recycled content
- Designed and manufactured in the U.S.A.

* Larger sizes as approved by engineering

Options:

- Aluminum or wood rafters and purlins
- Custom finishes
 - Class I anodized: Dark Bronze, Clear
 - Powder coat finish: AAMA 2604-2605
 - Fluoropolymer (50% or 70%): AAMA 2604-2605
 - Cladding options
- Designed to accommodate almost any monolithic, insulated, laminated, decorative, polycarbonate, or solid infill
- High efficiency Lumira aerogel infill available
- Delivery options: modular; pre-assembled, pre-glazed; pre-assembled, not pre-glazed; knocked down

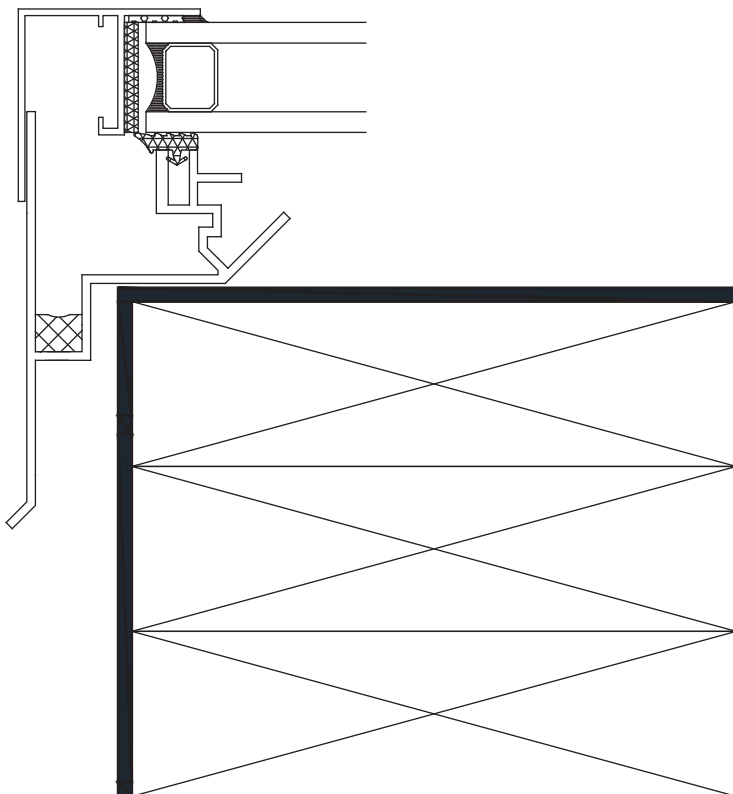

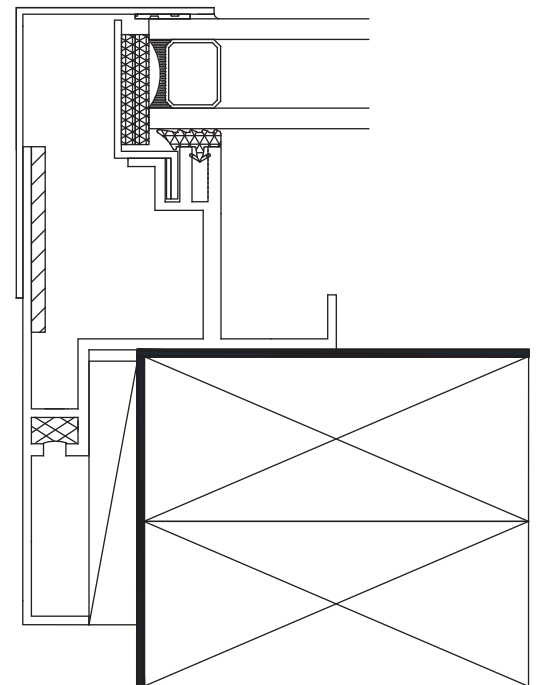

Condensation Gutter Options

Flat G2 Welded Curb

Flat G3 Welded Curb
